

Synopsis

We all know the nursery rhyme "Hey Diddle Diddle," but have you ever really thought about it? How can a cow leap over the moon? If a cat could play the fiddle, wouldn't it be viral on the internet? Why is a dish running away with a spoon? What's making that little dog laugh? And how do all these quirky characters connect? This family-friendly comedy presents seven imaginative stories telling us what might just be "The True Story of Hey Diddle Diddle."
